

MITCHELL SAVED FROM TRAIN WRECK

Two Men Remove Ties Piled
Upon Track.

INTENDED DISASTER AVERTED

Miners' Chief Was Aboard, and At-
tempt Believed Directed Against
His Life.

SCRANTON, Pa., June 23.—John Mitchell spoke at a miners' mass meeting in Forest City, and an attempt was made to wreck the Erie train on which he was returning to Scranton. It is felt in some quarters that the work of the train wreckers was directed at Mr. Mitchell, since there was no other prominent person on the train.

The attempt was frustrated by John Yeager and a man called Castle Gate. These two were walking along the southbound track, when they stumbled upon a pile of ties placed across the rails, just below the Forest City breaker.

They heard the train pull into the Forest City station at 9:45, and, thinking that they would not have time to sound the warning, fell upon the pile and cleared the tracks of the obstruction. The train was in motion before they had finished. Then they ran back and stopped it.

Mr. Mitchell said:
"I don't know just what to make of the matter. I hate to think it was an effort to wreck the train. The conductor had the train stopped at the place designated by the two men, and they found some ties thrown to one side. The train ran slowly for a time, but there were no further incidents on the trip."

PIANO DEALERS WILL MEET HERE NEXT YEAR

E. H. Droop, president of the Washington Piano Dealers' Association, is in receipt of the following telegram from D. G. Pfeiffer, secretary of the local board, which is at present attending the fifth annual convention of the National Association of Piano Dealers of America, at Put-in-Bay:

"Washington was unanimously, with a whoop and hurrah, voted in June next year, and will be attended by five to six hundred piano dealers of prominence from all States of the Union."

It is renewed this morning with painful results so far as the waterboy was concerned.

COLONEL BLISS IMPROVES; SHAKEN UP IN RUNAWAY

Col. Archie M. Bliss, of Overlook Inn, who was thrown from a vehicle in which he was driving last Wednesday, and quite severely shaken up, is much better today and will be able to be out in a day or so.

At the time of the accident Colonel Bliss was taken to the Arlington Hotel in the Casualty Hospital ambulance, and has been at the hotel since. He expects soon to be able to return to his farm at Overlook Inn.

Colonel Bliss was formerly of Brooklyn, N. Y., and was at one time a Representative from that State.

MAD CLASSMATE OF PRESIDENT

Prof. Carl C. Rice Is Under

VICTIM OF EXCESSIVE HEAT

Arrested on the Streets of Pittsburg,
Where His Actions Excited Sus-
picion of His Sanity.

PITTSBURG, June 23.—Prof. Carl C. Rice, of Lincoln, Neb., a Harvard graduate, and a professor of Leland Stanford University, Palo Alto, Cal., is under guard in the insane department at St. Francis Hospital.

His identity was learned through a name written on the flyleaf of an English-French pocket dictionary and a pair of spectacles.

Acting Strangely.
Early on Monday morning Special Officer James Smith, of the North Side police, noticed a man in Madison avenue acting strangely, and arrested him. At the North Side station an examination of the prisoner led the police to believe that he was affected by the excessive heat. He gave the address of Adam Jordan, laborer, aged 23, Lincoln, Neb.

After being placed in a cell, the prisoner developed violent symptoms and was turned over to the charities department. As the man was well dressed and had many railroad passes and about \$8, it was decided to send him to St. Francis Hospital.

Gives Another Name.
Two men were required to control him on the trip. At the end of the journey the prisoner had sufficiently calmed down to tell who he was. He asked for his dictionary, and while he was looking at his right name he gave his own handwriting he gave a second name to the hospital authorities.

After much telegraphing the man's family was found in Lincoln, and word was received last night that his father is now on his way to Pittsburg. Overstudy is the cause given for Professor Rice's mental condition.

The accident occurred on the temporary railroad which has been built to carry dirt, etc.

Richardson was a native of Riverport, Va., and was twenty-three years of age. His remains will this afternoon be sent to his home at Riverport.

KILLED IN SELF-DEFENSE.
Justice R. C. Triplett, of Fairfax county, held an inquest yesterday over the remains of Willis A. Beavers, who died at his home in Fairfax county yesterday morning.

The jury brought in a verdict that the deceased came to his death from the result of a blow on the head administered by a gun in the hands of William Simpson. The jury declared, however, that Mr. Simpson acted in self-defense.

Dr. S. B. Moore performed an autopsy on Beavers' remains.

The remains of Beavers were this morning sent to Manassas by Undertaker Wheatley for interment there.

ELECTRIC CONDUIT MANHOLE GOES FLYING IN AIR
Gas which accumulated in an electric conduit at Four-and-a-half and L streets southwest exploded with a mighty roar about 7 o'clock this morning, but only slight damage was done.

The heavy top of the manhole was blown about thirty feet into the air, and came within an ace of striking a delivery wagon horse on the head.

It fell to the ground a short distance from where it belonged. For about eight feet the asphalt was torn up by the force of the explosion. The asphalt was raised about ten inches, but was pressed down properly by a hand roller.

No person was hurt in the explosion, but scores of residents of South Washington had their slumbers disturbed by the noise, and many others were attracted to the scene.

\$1.00 Harpers Ferry, Charlestown and Winchester and return. Leave Baltimore & Ohio R. R. station 3:30 a. m. Sunday, June 25. Opportunity to spend Sunday in the country.

NEW—Just made. Made up for an exclusive Eastern millinery store and refused because of a delay. Maker had turned to making fall hats before this order was completed and he gladly sacrificed profits and part of cost to clear them up quickly.

Sale price is less than
cost to make

You cannot find a hat you'd not quickly pay \$5.00 for. But most of them are REGULAR \$7.00, \$8.00, and \$10.00 HATS. Never shown before.

These Hats are all made of the best grades of Tuscan, Milan, and other straws, neatly trimmed. The workmanship is in fact exceptional. They are mostly picture shapes, but with a goodly lot of Turbans and Charlotte Corday Hats. Trimmings are of flowers, fine foliage, wings, ribbons, and velvets. Many are faced with tulle.

You must have a new Hat for going-away. Buy it tomorrow. Remember there are only 350 Hats—and how can the several thousand women who need just such Hats be supplied.

It is not going beyond provable fact to say that such a collection of hats as this is a rare thing. It is really the big opportunity.

Note the color range. This is full of meaning when it is considered in connection with the fact there are very few duplicates in the entire lot—practically no duplicates of styles in the same color.

An interesting new special.
